Mnet Group signs Master Content Aggregator Agreement with VHA

Mnet Group Limited (ASX: MNZ) is pleased to announce that, it has entered into a Master Content Aggregator Agreement with Vodafone Hutchison Australia (VHA) for its various content portals including Vodafone Live! and Planet 3.

The Agreement requires Mnet Group to establish, host, manage, operate, supply and maintain Music, Tones and Games content for Vodafone Hutchison Australia.

Technical and product integration will commence immediately.

Mnet's CEO, Horden Wiltshire said *"Winning this business is another example of the benefits of the recent merger between Mercury Mobility and m.Net Corporation, and reflects the combined entity's credentials and capabilities in Australasia"*.

"Anyone that has bought a mobile phone in the last 12 months can start to see what these devices are capable of. According to the Australian's Mobile Phone Lifestyle Index 2009, more than 20% of Australian's are accessing the internet on their mobile phone every day."

Wiltshire also added *"As an enabler to the expanding mobile Internet industry Mnet is extremely well positioned to take advantage of this growth. Mnet's business with telecommunications carriers, leading media companies and enterprises continues to expand. We are excited about the growth in the space over the next couple of years. Customers are now starting to allocate significant budgets to mobile and we do not see this trend slowing down in the near future."*
